Donnie Goins – Finish Equipment Operator/Assistant Supervisor

Mr. Donnie Goins has consistently proven himself to be an exemplary individual of Great Character, Knowledge and Ability during his nearly eight years of service to the Board, this department and the citizens of Highlands County.

These traits have never been more evident than they have during the recent storm event, Hurricane Ian. Mr. Goins exhibited unparalleled leadership, innovation and problem-solving skills throughout, during preparation, amidst the influx of the storm and more importantly during the aftermath. None of which comes as a surprise to me, his coworkers or supervisory staff.

A specific example of which I will make mention, though there are many, are his actions involving the removal and replacement of a large culvert, damaged by the storm, which traverses a major arterial roadway (Golfview Rd). A road which is heavily traveled daily by a tremendous number of motorists, commuting to and from their respective and varied destinations.

I credit fully Mr. Goins with the successful and timely fashion in which this specific operation was approached and completed. The measures contrived by Mr. Goins greatly expedited the opening of this road. Which in turn equates to a direct cost savings, while also hastening the opening of this road and right of way to the pedestrian and motoring public.

His brainchild of connecting two fifty-foot culverts above ground by directing that they be welded together and further secured with added steel reinforcement before installation prevented many hours of grappling, attempting to band the two culverts together in the deep, water filled trench, thus sparing his crew from harrowing working conditions, a boost to their morale in the process.

The installation of one hundred feet of pipe in one continuous motion is a daunting task to say the least. Mr. Goins, I must mention, was also acting as the lead Finish Operator on this project, operating the excavator himself, all the while directing his ground crew during the installation.

I will also point out that during this process Mr. Goins had to deal with a myriad of overhead and underground utilities directly in the path of his work zone, posing safety concerns, not to mention creating a logistical nightmare for him, as the operator in this process. His operation was well planned, executed smoothly and expeditiously, while always keeping his crew and their safety forefront in his mind, as evidenced by his actions throughout this endeavor.

In my thirty-eight years in the construction/installation of infrastructure, twenty-six of which are years of service to the Board, I do not recall having seen an undertaking such as the setting of this one-hundred-foot culvert conducted as flawlessly, as a result of precision planning, dedication, attention to detail and pride as displayed by Mr. Goins. As has been his practice since his employment with HCBCC.

INDEMNIFICATION

To the fullest extent permitted by laws and regulations, and in consideration of the amount stated on any Purchase Order, the Contractor shall defend, indemnify, and hold harmless the City, its officers, directors, agents, guests, invitees, and employees from and against all liabilities, damages, losses, and costs, direct, indirect, or consequential (including but not limited to reasonable fees and charges of engineers, architects, attorneys, and other professionals and court and arbitration costs) to the extent arising out of or resulting from any acts of negligence, recklessness or intentional wrongful misconduct in the performance of the work by the Contractor, any Subcontractor, or any person or organization directly or indirectly employed by any of them to perform or furnish any of the work or anyone for whose acts any of them may be liable.

In any and all claims against the City, or any of its officers, directors, agents, or employees by any employee of the Contractor, any Subcontractor, any person or organization directly or indirectly employed by any of them to perform or furnish any of the work or anyone for whose acts any of them may be liable, this indemnification obligation shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor or any Subcontractor or other person or organization under workers' or workmen's compensation acts, disability benefit acts, or other employee benefit acts, nor shall this indemnification obligation be limited in any way by any limitation on the amount or type of insurance coverage provided by the City, the Contractor, or any of his Subcontractors. To the extent this Indemnification conflicts with any provision of Florida Law or Statute, this indemnification shall be deemed to be amended in such manner as to be consistent with such Law or Statute.

Subrogation: The Contractor and his Subcontractors agree by entering into this contract to a Waiver of Subrogation for each required policy herein. When required by the insurer, or should a policy condition not permit Contractor or Subcontractor to enter into a pre-loss agreement to waive subrogation without an endorsement, then Contractor or Subcontractor agrees to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy, which includes a condition specifically prohibiting such an endorsement, or voids coverage should Contractor or Subcontractor enter into such an agreement on a pre-loss basis.

Release of Liability: Acceptance of the Contractor of the last payment shall be a release to the City and every officer and agent thereof, from all claims and liability hereunder for anything done or furnished for, or relating to the work, or for any act or neglect of the City or of any person relating to or affecting the work.

Savings Clause: The parties agree that to the extent the written terms of this Indemnification conflict with any provisions of Florida laws or statutes, in particular Sections 725.06 and 725.08 of the Florida Statutes, the written terms of this indemnification shall be deemed by any court of competent jurisdiction to be modified in such a manner as to be in full and complete compliance with all such laws or statutes and to contain such limiting conditions, or limitations of liability, or to not contain any unenforceable, or prohibited term or terms, such that this Indemnification shall be enforceable in accordance with and to the greatest extent permitted by Florida Law.

STATEMENT OF QUALIFICATION

The Nidy Company was founded in 1924. Through the leadership of Robert Nidy and son, Lynn Nidy, the family owned business thrived in difficult economic times by developing the game of shuffleboard and building most of the courts in the Southeastern part of the United States.

Vasco Sports acquired the Nidy Company in 2007 and expanded the business while maintaining the same integrity and commitment that our customers have come to expect.

We bring value to every project with a reputation for effective communication and innovation. We are a licensed **Florida Building Contractor** & member of the **American Sports Builders Association**. We not only bring technical expertise to each project, but we bring the creativity and ingenuity developed through decades of attention to detail. Our team can handle any project big or small, from $10,000 to in excess of $1,000,000. We have successfully constructed courts & tracks at various public school, parks & private clubs throughout the state. Nidy Sports has worked collectively with municipalities, engineers and construction managers to consistently deliver quality projects. We understand the RFP and currently hold a similar multi-year contract with Ocala Parks & Rec. for resurfacing at various parks.

Nidy Sports Construction Company is a full service design-build company. Notable projects that we worked closely with the owner to deliver a successful outcome include:

1) University of Central Florida: 9 court resurface w/ school logo.

These are the only courts at UCF so a fast turn around was imperative. In addition, the school requested the UCF logo to be installed. We worked closely with the school's schedule to minimize court closure and provided detailed information on the size, location & colors of the school logo for the various departments at UCF.

2) United States Tennis Association: Court conversions, install cabanas, logos & resurface.

The USTA National Campus in Lake Nona is a busy facility with high expectations. Nidy crew members paid close attention to detail and kept the staff well informed of progress. As a result, we have completed several projects including the resurfacing of their indoor courts.

3) Marion County Parks & Rec.: New construction of 8 pickleball courts at Coehadjoe Park.

Nidy was the successful bidder with the County and handled the entire project including extensive site work, Musco lighting, drinking fountain and associated concrete. This project had many ancillary aspects and due to a collective effort the project was a success.

To whom it may concern,

On August 19, 2016 the City of Sanford submitted a formal bid for the Sanford Park Improvements Project. The project consisted of repair or replacement of eight basketball courts and reconstruction of one tennis court. This included demolition, grading the sites, new asphalt, new basketball standards and nets, new tennis court netting and poles, court resurfacing and striping and new fence installation.

Nidy Sports Construction Co., Inc. was the lowest most responsive bidder. Even with their bid being the lowest, it was above the project's budget limit. Staff met with Nidy representatives to discuss the issue and they worked with staff to value engineer the project. They were very responsive to our needs and creative with aiding the City in some cost savings for the project.

This project was a high visibility project and located within each of our Commission districts. They were tentative to any requests and the contractor kept their sites clean and avoided any obstructions to the public. Nidy has proven to be an asset to the City as well as a team member during construction. They completed the project ahead of schedule with no change orders during construction.

Please accept this letter as reference in determining Nidy Sports Construction Co., Inc. for you construction project. I am available to discuss further if needed.

Nidy Sports Construction recently completed improvements at **Coehadjoe Park** located at 4225 NE 35th St, Ocala, FL 34479. The project was completed in approximately 4 months and included the construction of 8 new pickleball courts, Musco lighting and associated site work.

Nidy Sports Construction diligently managed the project from contract through completion. Once the project was underway all scheduling, submittals, field work and communications were handled in a prompt, professional manner. We felt confident contracting with Nidy Sports based upon their competitive bid and long track record of successful sports projects.

We enjoyed working with Nidy Sports at **Coehadjoe Park** and look to continue the relationship as they were recently awarded the **Salt Springs Park Improvements** project. This project will include the construction of 2 new pickleball courts and the resurfacing of existing tennis & basketball courts.

We have had a great experience with the Nidy Sports and would recommend them for your next project.

HIGHLANDS COUNTY
COUNTY COMMISSION AGENDA ITEM

DATE OF ACTION REQUEST: Dec 20, 2022

PRESENTER: **Brandon Gunn, Projects Manager**

SUBJECT/TITLE: **Request approval of the Addendum to the Agreement with Motorola Solutions for the CommandCentral AXS dispatch console equipment for the use of emergency operations in the amount of $1,694,759.00 using American Rescue Plan Act (ARPA) funds.**

STATEMENT OF ISSUE

When the Board approved the American Rescue Plan Act (ARPA) proposed spending plan on September 21, 2021, the Dispatch Console project was 1 of 16 approved projects. The project was requested by the Highlands County Sheriff's Office to replace equipment that was reaching end-of-life, and the amount requested was $1,627,780.00. During the presentation at the BOCC meeting, the dispatch console project received a very favorable risk ranking from the ARPA consultants, Government Services Group and was looked upon favorably by the Board as a result.

This addendum to the agreement allows for the increase of $66,979.00 for the removal of edge availability equipment and the addition of the microwave hop from the Avon park Tower to Frostproof with MPLS gear at all Highlands County radio-related sites.

RECOMMENDED ACTION

Move to approve the Addendum to the Agreement with Motorola Solutions for the CommandCentral AXS dispatch console equipment for the use of emergency operations in the amount of $1,694,759.00 using American Rescue Plan Act (ARPA) funds.

FISCAL IMPACT

There is no fiscal impact to Fund 005 (General), Project 20073 (Dispatch Console Upgrade), Cost Center 3996 (Emergency/Disaster Relief), account 56400Z (Project Equipment) as the $1,694,759.00 from ARPA funding has already been budgeted.

PRESENTER: **Clinton Howerton, Jr., P.E., County Engineer**

SUBJECT/TITLE: **Request approval of Change Order 1 for an increase in compensation in the amount of $45,650.00 and 22 additional contract days related to the W. Stryker Road Project, from North Olivia Drive to US 27, for the replacement of the damaged existing 48" diameter aluminum culvert,.**

STATEMENT OF ISSUE

On June 07, 2022, the County approved an Agreement with Cobb Site Development, Inc. (Cobb), pursuant to ITB# 22-003 (Agreement), for the W. Stryker Road Project, from North Olivia Drive to US 27 (Project). During construction of Phase 1, it was discovered the existing 48" diameter aluminum culvert crossing Stryker Road was damaged. Road and Bridge has the appropriate length of 38" x 60" ERCP available and will be provided to the contractor. This will help keep extended delays and increased cost from occurring. The cost breakdown for the repairs is as follows:

38" x 60" ERCP installation: $18,290.94
Roadway Repairs: $27,359.06
Total: $45,650.00

The scope of work for Change Order 1 consist of removing the damaged existing 48" diameter culvert, installing the 38" x 60" ERCP, and backfilling to the appropriate roadway grade.

RECOMMENDED ACTION

Move to approve Change Order 1 to increase Project 18008 W. Stryker Rd. Improvements contract amount $45,650.00 and provide an additional 22 contract days.

FISCAL IMPACT

The fiscal impact is an increase to the FY 22-23 Budget within Fund 151 (Infrastructure Surtax) in the amount of $45,650.00.

PRESENTER: **Sherry G. Sutphen, County Attorney**

SUBJECT/TITLE: **Request authorization for Chairman/Vice-Chairman to execute a Corrective County Deed related to that property located at 5388 Pebble Beach Drive, Sebring, FL 33872.**

STATEMENT OF ISSUE

The purpose of the Corrective County Deed is to release any and all reservations or rights to any phosphates, minerals, metals and/or petroleum which may have been inadvertently reserved by the County, by virtue of Florida Statutes, Section 270.11, in and to the real property located at 5388 Pebble Beach Drive, Sebring, FL, for which ownership was originally transferred under that County Deed recorded in Official Record Book 2819, Page 968, of the public records of Highlands County, Florida.

This Corrective County Deed was requested by the title company as part of a subsequent sale of the property. The chain of title showed a very old transfer of mineral rights on the property that statutorily transferred to the County unless released. RECOMMENDED ACTION

Move to authorize for Chairman/Vice-Chairman to execute a Corrective County Deed related to that property located at 5388 Pebble Beach Drive, Sebring, FL 33872.

SUBJECT/TITLE: **Request adoption of Resolution 22-23-47 pertaining to Medical Marijuana legislation.**

STATEMENT OF ISSUE

Highlands County hereby urges the Florida Legislature to enact legislation amending the general laws of Florida to address the noise and odor issues stemming from Medical Marijuana cultivation and processing facilities or permit local governments to enact reasonable regulations to address local excessive noise and noxious odor concerns related to such facilities, as these concerns are negatively impacting the quality of life of the residents of Florida, whose rights are no less important than those of the Medical Marijuana industry.

Move to adopt Resolution 22-23-47 pertaining to Medical Marijuana legislation.

RESOLUTION NO.: 22-23-47

A RESOLUTION OF HIGHLANDS COUNTY, FLORIDA, PERTAINING TO MEDICAL MARIJUANA LEGISLATION; PROVIDING FOR LEGISLATIVE FINDINGS AND INTENT; PROVIDING SUPPORT FOR LEGISLATIVE CHANGES; PROVIDING FOR LEGISLATIVE PRIORITIES AND LOBBYING EFFORTS; PROVIDING FOR THE IMPLEMENTATION OF ADMINISTRATIVE ACTIONS; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR SCRIVENER'S ERRORS; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE; AND PROVIDING DIRECTIONS TO THE COUNTY ADMINISTRATOR.

WHEREAS, on November 6, 2016, Constitutional Amendment 2, entitled "Use of Marijuana for Debilitating Medical Conditions" (2016 Constitutional Amendment 2) appeared on the ballot in Florida's General Election and passed with 71% of the vote; and

WHEREAS, with the passage of 2016 Constitutional Amendment 2 individuals with debilitating medical conditions, as determined by a licensed Florida physician, are permitted to use marijuana for medical purposes and allows caregivers to assist with patients' medical use of marijuana; and

WHEREAS, in response to 2016 Constitutional Amendment 2, the Florida Legislature revised Florida Statutes, Section 381.986, pertaining to the medical use of marijuana and enacted additional local government preemptions pertaining to the local regulation of medical marijuana cultivation, processing and dispensing; and

WHEREAS, Florida law currently provides that local governments are preempted from regulating the cultivation and processing of medical marijuana; and

WHEREAS, this preemption means that local governments throughout the state of Florida are without authority to enact regulations that would address negative impacts stemming from the cultivation and processing of Medical Marijuana, including noise and noxious odors that are emitted during these industrial-type activities; and

WHEREAS, despite any benefits from Medical Marijuana to persons suffering from certain debilitating conditions, if the cultivation, processing and dispensing facilities are not appropriately regulated, they can pose a threat to the safety, security and wellbeing of the community, particularly to those living in residential neighborhoods in close proximity to such facilities; and

WHEREAS, although Florida Statutes, Section 381.986(11), purports to allow local governments to enforce the provisions of the Florida Building Code and Florida Fire Prevention Code related to Medical Marijuana cultivation, processing and dispensing

facilities, Florida Statutes, Section 604.50, exempts nonresidential farm buildings from the provisions of the Florida Building Code and Medical Marijuana cultivating and processing facilities are generally considered non-residential farm buildings, thereby further preempting local governments from regulating such structures; and

WHEREAS, neither the Florida Building Code nor the Florida Fire Prevention Code address excessive noise or noxious odor issues; and

WHEREAS, since the approval of 2016 Constitutional Amendment 2, and the adoption of the amendments to Florida Statutes, Section 381.986, Highlands County has been made aware of complaints throughout the State of Florida, from residents situated adjacent to Medical Marijuana cultivating and processing facilities, as to excessive noise and noxious odors emanating from agricultural facilities which have been converted to Medical Marijuana cultivating and processing plants; and

WHEREAS, Medical Marijuana facilities located in close proximity to school bus stops will forcibly expose school aged children to the excessive noise and noxious odors emanating from such facilities; and

WHEREAS, the excessive noise and noxious odors emanating from these Medical Marijuana facilities negatively impact the quality of life for adjacent residents, potentially causing breathing difficulties and an inability to enjoy the outdoor areas of their homesteads; and

WHEREAS, because local governments are preempted from regulating the cultivating and processing activities at Medical Marijuana facilities, they are unable to appropriately address the quality of life issues, impacting their citizens, which are related to such facilities; and

WHEREAS, the Florida Legislature should either enact appropriate regulations to address excessive noise and noxious odors stemming from the cultivation and processing of Medical Marijuana, or allow local governments to impose appropriate requirements to ensure the protection and integrity of the local citizenry.

NOW, THEREFORE, BE IT RESOLVED BY HIGHLANDS COUNTY, FLORIDA, AS FOLLOWS:

SECTION 1. Legislative Findings and Intent. Highlands County has complied with all requirements and procedures of Florida law in processing this Resolution. The above recitals are hereby adopted.

SECTION 2. Support for Legislative Changes. Highlands County hereby urges the Florida Legislature to enact legislation amending the general laws of Florida to address the noise and odor issues stemming from Medical Marijuana cultivation and processing facilities or permit local governments to enact reasonable regulations to address local excessive noise and noxious odor concerns related to such facilities, as these concerns are negatively impacting the quality of life of the residents of Florida, whose rights are no less important than those of the Medical Marijuana industry.

SECTION 3. Legislative Priorities and Lobbying Efforts. The County Administrator is hereby directed to include this matter in the County's 2023 Legislative Priorities and to communicate with the County's state lobbyist to advocate for legislation described herein.

SECTION 4. Implementing Administrative Actions. The County Administrator is hereby authorized and directed to take such action as may be deemed necessary and appropriate in order to implement the provisions of this Resolution. The County Administrator may, as deemed appropriate, necessary and convenient, delegate the powers of implementation as herein set forth to such County employees as deemed effectual and prudent.

SECTION 5. Savings Clause. All prior actions of Highlands County pertaining to legislation regulating noise and odors associated with Medical Marijuana cultivating and processing facilities described herein, as well as any and all matters relating thereto, are hereby ratified and affirmed consistent with the provisions of this Resolution.

SECTION 6. Scrivener's Errors. Typographical errors and other matters of a similar nature that do not affect the intent of this Resolution, as determined by the County Administrator and County Attorney, may be corrected.

SECTION 7. Conflicts. All Resolutions or parts of Resolutions in conflict with any of the provisions of this Resolution are hereby repealed.

SECTION 8. Severability. If any Section or portion of a Section of this Resolution proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force, or effect of any other Section or part of this Resolution.

SECTION 9. Effective Date. This Resolution shall become effective immediately upon its passage and adoption.

SECTION 10. Directions to the County Administrator. The County Administrator is hereby directed to transmit certified copies of this Resolution to Florida's Governor, the Florida Senate President, the Speaker of the Florida House of Representatives, the Members of the Highlands County Legislative Delegation, the Florida Surgeon General and the Secretary of the Florida Department of Health.

All SFSC campuses set to restart classes Monday

By MARC VALERO
Staff Writer

AVON PARK — South Florida State College will resume classes Monday at all its locations in Highlands, DeSoto and Hardee counties following the closure due to Hurricane Ian.

As conditions are improving, especially in DeSoto and Hardee counties, SFSC will return to full operations on Monday, Oct. 10. Classes at all locations and in all modalities will resume, SFSC President Thomas Leitzel announced recently.

The water is starting to recede in DeSoto and Hardee counties. Road conditions throughout the area merit extra caution as water continues to fill swales and other drainable areas, debris is piled on the roadside awaiting pick up, and restoration crews and debris-hauling trucks are moving throughout the area.

The southern and western portions of the SFSC service area were severely hit by high winds, rain, and river flooding, Leitzel noted. There is damage and destruction throughout the area.

SFSC campus facilities in DeSoto and Hardee will have ceased service as special needs shelters by Friday, Oct. 7, he said. This will allow time for the facilities to be cleaned and reset for classes.

Leitzel provided an update on the affects of the storm on the SFCC campuses and facilities.

The Highlands Campus had the least amount of structural damage and maintained power and internet throughout. The air conditioning and chilled water supply are stable. There are several areas where water intrusion was evident.

These areas are currently being addressed. Staff continues to clear debris. The broken windows have been covered and the window vendor has been contacted to estimate repairs.

The Hardee Campus is running on grid power. The special needs shelter on this campus has been shut down. Belfor Property Restoration inspected the roof and surveyed for moisture.

There is damage to a metal building (Lineworker Program Barn).

The DeSoto Campus was still in use on Wednesday as a special needs shelter. The campus is running on grid power and water pressure issues following the hurricane have been resolved.

The Department of Health is in the process of shutting down the shelter and hoped to return the building to the College by Friday, Oct. 7. Belfor Property Restoration is mobilizing to inspect and address any storm-related issues.

The Lake Placid Center, Building 100 has significant shingle loss and water intrusion. Building 400 has roof damage and water intrusion. Belfor Property Restoration is onsite and has water extraction and roof covering underway.

The Crews Center has power and internet with no noticeable damage to the facility.

What can you recycle?

Officials: Keep it clean, simple

By PHIL ATTINGER
Staff Writer

SEBRING — With Highlands County's recycling drop-off spots up and running, you may ask: "What will they take?"

County officials say, in short, you want to keep recycling clean and simple. The list may be longer than you think, but when in doubt, you may want to leave it out.

Bob Diefendorf, Highlands County projects manager, said he's received dozens of emails from residents wanting clarification on what they can and should not take to the drop-off sites. His answer, especially for plastic, is basic.

"In the short of it, don't go according to the plastic numbering system," Diefendorf has told residents. "Just go according to if it is a plastic bottle, jug or jar."

And, of course, make sure all items are clean, free of residue.

When asked by the Highlands News-Sun about community participation in the reorganized recycling system, he said, "It's improving."

"I think as more people [know], it will get better," Diefendorf said.

Where to go

Currently, there are three sites that will accept recyclable materials from anyone in the county:

- The Lake Placid station at 25 W. Royal Palm St. sits on Hickey Avenue near the CSX Railroad tracks, just off West Interlake Boulevard in downtown Lake Placid. It runs from 2-5:30 p.m. Mondays and Wednesdays, and from 8 a.m. to 1 p.m. on Saturdays.
- The Avon Park recycling station at 100 S. Glenwood Ave. in downtown Avon Park has its entrance near the Eddie Cannon Street/South Prospect Avenue intersection. It also runs from 2-5:30 p.m. Mondays and Wednesdays, and from 8 a.m. to 1 p.m. Saturdays.
- The Sebring recycling station sits off Westminster Road, inside the soccer field entrance to Max Long Recreation Complex. It runs from 2-5:30 p.m. Tuesdays and Thursdays, but also 8 a.m. to 1 p.m. Saturdays.

About a month ago was the first time anything was dumped illegally outside one of these sites after hours. When the county had unfenced, 24-hour drop-off sites, people would leave massive amounts of un-recyclable material outside the roll-off bins.

This was one big reason the county went to a single-stream curbside system in 2017. Non-compliance with what can and can't be recycled, and problems of people contaminating loads with household garbage, was why the county stopped doing that last year.

What to take

Diefendorf said the county accepts paper, cardboard, steel and aluminum cans, glass bottles — to be crushed and used for ground cover at the Highlands County Landfill — and plastics.

Diefendorf has told residents that only clean plastic jugs, bottles and jars will be accepted at the recycling drop-off centers, but he advises people not to go by the 1-7 recycling numbering system. If they must, however, he said most of the bottles, jugs and jars that are acceptable fall into the No. 1, 2, or 4 categories, he said.

Number 1 refers to PET — Polyethylene Terephthalate — which is beverage bottles, water bottles, food bottles/jars, condiment bottles, clean peanut butter jars, jelly jars and other such containers.

Number 2 is HDPE — High Density Polyethylene — as in milk and juice jugs, shampoo bottles, detergent bottles, bleach bottles and similar containers.

A few acceptable bottles may be No. 4 LDPE — Low Density Polyethylene — such as squeezable bottles for honey or mustard.

"The point is, if it is a plastic bottle, jug or jar, it is acceptable and all other plastics are not," Diefendorf writes.

Examples of containers the system won't take include those for yogurt, sour cream, Ricotta cheese or Cool Whip, as well as plastic clamshell containers for things like blueberries and other fruits. They may have No. 1 or 2 printed on them, but they aren't accepted under the county's recycling program.

"Many of these materials are food containers that may contain food residue that contaminate other materials or are dirty," Diefendorf writes.

SMART Objective Worksheet

Draft Goal:

Increase participation and overall attendance at the Sunshine State Club Championships

Definition	Your Objective
Specific • What do I want to accomplish with this event? Why? • What is the desired result?	By centralizing the event within 3 hours of any major wrestling community, the event will draw significantly more participants and thus attendees increasing revenue which will be used to reduce the cost of Florida athletes attending the Junior and 16U National Events.
Measurable • How will you quantify (numerically or descriptively) success? • How will you measure progress?	Numbers for this type of event when run in parts of the state far from some of the wrestling population centers, we generally get about 550 entries. We would expect to get a minimum of 750 with this location. Number of entries and attendees will be the measure of progress over 3 years
Achievable • What skills are needed? • What resources are necessary? • What factors impact goal achievement? • Does the goal require the right amount of effort?	Tournament management skills as well as competent officiating skills are important. Mats, tables, chairs, power, wifi are all necessary ingredients fo a successful event. Impact factors include our ability to get the word out and demonstrate the significance of the event.
Relevant • Is the goal aligned with the overall mission or strategy to increase economic activity in Highlands County?	The goal is aligned in that it is specifically designed to increase our participation which increases the number of both youth and adults who will be in town, staying at hotels, eating at restaurants, etc.
Time-bound • How much time will be available to complete this SMART Objective? • Is the deadline realistic?	We do not feel as if there is any issue with time. Typically this event would only be addressed in December with the exception of identifying a site. With this muc lead time, we believe we can make the event extraordinary and grow it year to year.

Final Goal:

800 Competitors in year 1, increasing by a minimum of 100 each successive year with a proportionate increase of attendees.

Marketing Plan

FAWA has an extensive mailing list of over 6000 coaches, athletes, parents, and club leaders throughout the state.

We also have a robust following on social media and a well-known web site within the Wrestling Community.

We would market the event to those outlets as well as taking ads in various wrestling publications and websites including, but not limited to, the FHSAA High School Championships program and the "Florida Wrestling Room" Facebook page and soon to be launched website. The Florida Wrestling Room has over 10,000 followers.

The "Visit Sebring Logo" would be part of every marketing effort.

These efforts, repeated strategically, will assure that we will reach every member of the Florida wrestling Community, even those who are not members of USA Wrestling in advance of the event.

Business Plan

The intent of the Sunshine State Clubs Championship is to run this event in Highlands County for a minimum of 3 years with the plan to continue running this event in the Sebring area for an indefinite time.

Given the anticipated success of our first event in this partnership, we would enhance our marketing efforts each year in order to bring in club teams from other states.

Because we are the State affiliate for USA Wrestling, the sport's member of the United States Olympic and Paralympic Committee, in the third year, we would look to expand the event to International Clubs as well with the intent of making this a marquee event for the International Wrestling Committee for years to come.

Instructions: County Government Application Form 2022-2023

The first application page has five numbered items.

Please note that Item 2 on the first application page is where the county's authorized person must provide his/her signature and the date.

Item 4 describes the content of the current “resolution” that is required. However, if a previous resolution has continuing authority, include a signed message about this and provide a copy of the previous resolution.

Item 5 of the first page of the application form asks for the name of the organization(s) to which you decide to allocate funds from your new county grant. The second page of the application form is the budget page, and one of these budget pages is needed for each organization listed in item 5.

The county alone has the authority to use all the grant funds itself or to provide some of the funds to other organizations within the county. However, the county remains responsible to the state for all the funds.

The budget costs must total to the exact amount of new funds for your grant. You can request budget changes and to add to the new grant budget unexpended previous funds from the prior grant, after the new grant begins.

The Request for Grant Fund Distribution Form is the last page herein and you must complete only the top part of the form. State EMS will complete the bottom part, as stated on the form.

You should copy all forms on your computer to use them. If you place them in restricted editing mode, you can use your keyboard Tab key to go from field to field.

HIGHLANDS COUNTY
COUNTY COMMISSION AGENDA ITEM

DATE OF ACTION REQUEST: December 20, 2022

PRESENTER: **Dawn Ritter, Natural Resources Manager**

SUBJECT/TITLE: **Requesting Highlands County Board of County Commissioner liaison for the Coastal and Heartland National Estuary Partnership (CHNEP) Highlands County Policy Committee member.**

STATEMENT OF ISSUE

The Coastal & Heartland National Estuary Partnership (CHNEP), is one of twenty-eight entities designated by Congress in the United States in the National Estuary Program (NEP). The NEP is a non-regulatory program set up by the US Environmental Protection Agency (EPA) to protect and improve the waters, habitat, and living resources of a designated estuary. The area CHNEP serves currently encompasses entire watersheds areas, including all the creeks and rivers that drain to these estuaries in the inland counties of Polk, Hardee, Manatee, and DeSoto counties; and portions of Highlands, Glades, and Hendry Counties, which watershed drains to the estuary.

The mission of the CHNEP is to protect and restore the water resources in the CHNEP area boundary. The CHNEP and its partners are collectively committed to undertaking the activities needed to implement priority actions and reach those objectives. Including cutting-edge scientific research and restoration, environmental education, and public outreach, as well as supporting and convening partners and stakeholders throughout the region to protect and restore water and other exceptional natural resources.

As a portion of Highlands County is within the Coastal and Heartland National Estuary Partnership service area, the Highlands County Natural Resources Department currently assist the CHNEP as part of the Management Committee with a variety or public agencies and private organizational leaders in ensuring milestones and achieving objectives for natural resources. This qualifies for additional potential federal and state funding through the CHNEP organization for water and wildlife protection as well as environmental education. However, a Highlands County Board of County Commissioner liaison is needed for the CHNEP Policy Committee. This committee establishes the general policy for the CHNEP and has ultimate authority in program administration. It appoints members to other committees and approves the CHNEP's budget. Its members represent federal, state, and local governmental leaders throughout the CHNEP area and meets three times a year.

RECOMMENDED ACTION

Move to appoint a Highlands County Board of County Commissioner liaison for the Coastal and Heartland National Estuary Partnership (CHNEP) Highlands County Policy Committee member.

COASTAL & HEARTLAND NATIONAL ESTUARY PARTNERSHIP

ABOUT US

What is the Coastal & Heartland National Estuary Partnership?

We are 1 of 28 entities designated by Congress in the United States in the National Estuary Program. The NEP is a non-regulatory program set up by the US Environmental Protection Agency (EPA) to protect and improve the waters, habitat and living resources of a designated estuary. In our case, that entails several estuaries and their respective basins including:

- Dona and Roberts Bays
- Lemon Bay
- Charlotte Harbor (incl. Peace & Myakka)
- Pine Island Sound (incl. Caloosahatchee)
- Estero Bay

Our 5,400 square mile service area stretches from Venice to Bonita Springs along the coast, and from Clewiston to Winter Haven inland. The area CHNEP serves currently encompasses 10 counties and 25 cities in Central and Southwest Florida.

Map of all National Estuary Program entities highlighted in yellow above.

How we got our start

The National Estuary Program was established in 1987 by an amendment to the Clean Water Act with a mission to identify, restore and protect estuaries of national significance in the U.S. In 1995, the EPA established the Charlotte Harbor National Estuary Program, which in 2019 was renamed as the Coastal & Heartland National Estuary Program (CHNEP) to reflect our expanded service area with multiple estuaries.

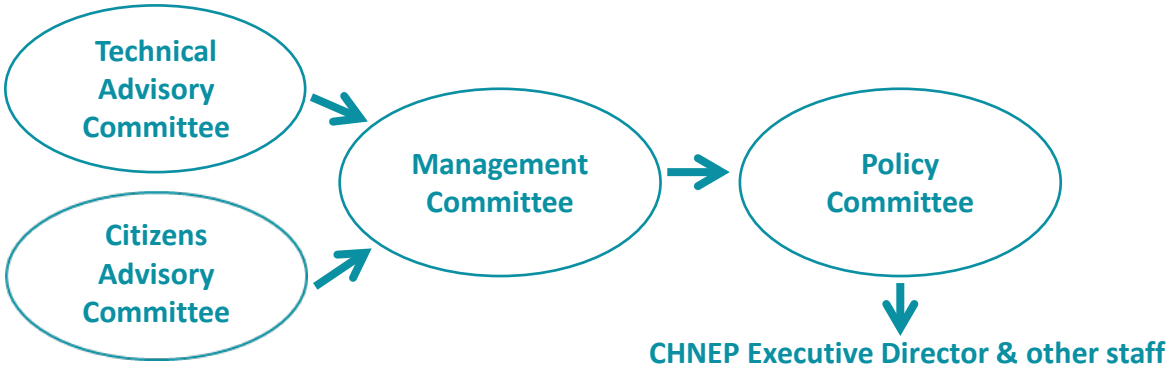
Our mission and priorities

The mission of the CHNEP is to protect and restore the water resources in the CHNEP area boundary. We've identified four priority actions outlined in our guiding document, the *Comprehensive Conservation and Management Plan* (CCMP). For each of these actions, the CCMP also lays out specific objectives and activities. The CHNEP and its partners are collectively committed to undertaking the activities needed to implement those priority actions and reach those objectives.

OUR GOVERNING STRUCTURE

As a CHNEP Policy Committee member, you are now a part of our governing structure – the CHNEP Management Conference. The Management Conference is the decision-making team for the CHNEP and is composed of four committees and the Program Office. Each committee serves a specialized role to fulfill the goals and objectives in the *Comprehensive Conservation and Management Plan (CCMP)*.

- **Policy Committee:** The decision-makers that govern the CHNEP; comprised of agency and elected leaders.
- **Management Committee:** Determines consensus and provides recommendations on program operations to the Policy Committee; comprised of governmental and organizational senior staff.
- **Technical Advisory Committee:** Provides input to Management and Policy Committees, advising on technical decisions; comprised of leading scientists and experts.
- **Citizens Advisory Committee:** Provides input to Management and Policy Committees, advising on public outreach and education decisions; comprised of community leaders and interested citizens.



The CHNEP's four committees collectively bring diverse interests, expertise, and resources together to focus on issues in a holistic way. Together they collaborate to identify gaps, prioritize needs, and offer resources so that the sum is greater than the total of the individual contributions. Here's the highlights on how the committees work:

- Meets three times a year (Fall, Winter and Spring cycles) and other times as needed.
- Membership in both the Management and Policy Committees are appointed by the agencies listed in the bylaws.
- Membership to Technical and Citizens Advisory Committees are appointed by the Policy Committee.
- Each committee has established bylaws for committee governance, responsibilities, and membership.
- CHNEP program staff serve as support to each of the committees.
- All meetings are open to the public and operate under Florida's "Government-in-the-Sunshine" laws.
- Robert's Rules of Order govern the conduct of the business of each committee.

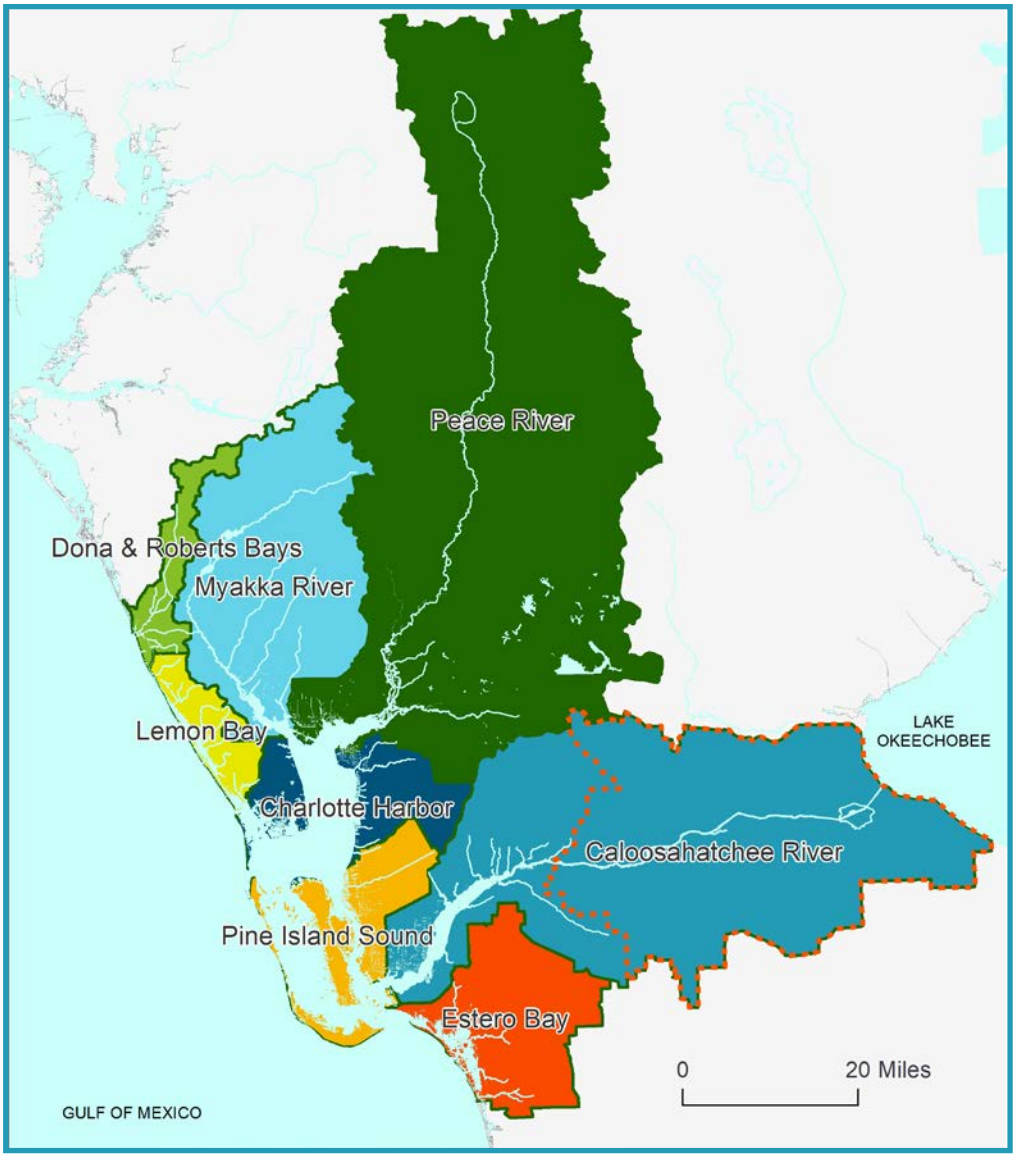
How We Work: Public Engagement and Partner Support

CHNEP is a partnership. It is engaging the public and the partners who participate in the program that generates the ability for us to achieve our current 19:1 return on investment - where for every dollar we receive, we are able to get $19 dollars worth of restoration done. We are working constantly to bridge entities to pool resources and expertise, to tackle and solve our region's toughest water resource challenges.

Presently, we have the majority of counties and many cities in our service area actively participating in the Management Conference, as well as many of the region's leading non-profits, industry groups and community organizations. Providing venues for partners to share and exchange information is one of the most valuable things the CHNEP does and we are constantly looking for opportunities to leverage that to further the objectives outlined in the CCMP.



Where We Work – the CHNEP Area

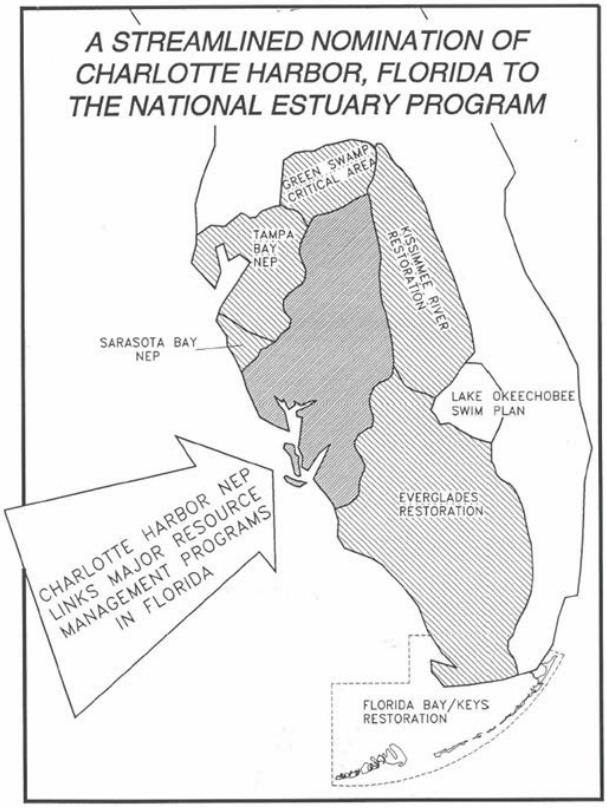
The CHNEP service area includes several estuaries and basins that have hydrological, ecological, and management distinctions. It is currently 5,400 square miles and includes Dona and Roberts Bays as well as Lemon Bay in Sarasota County, Charlotte Harbor in Charlotte County, as well as Pine Island Sound and Estero Bay in Lee County.

The CHNEP encompasses entire watersheds areas, including all the creeks and rivers that drain to these estuaries in the inland counties of Polk, Hardee, Manatee, and DeSoto counties. Portions of Highlands, Glades and Hendry Counties also part of the CHNEP. The major river basins it includes are the Myakka, Peace and Caloosahatchee.

How We Fit Into the Big Picture:

CHNEP was designed to dovetail with Everglades Restoration and other major restoration initiatives back when formed in 1995. The picture to the right was from original documents forming the CHNEP, showing its intention to compliment Everglades Restoration. The 5,400 square mile service area is adjacent to Sarasota and Tampa Bay National Estuary Programs to the North, the Kissimmee restoration area to the East, and the Western Everglades restoration area to the South.

The CHNEP encompasses the Caloosahatchee River, which is part of the greater Everglades ecosystem and is directly connected to Lake Okeechobee. As a result, the CHNEP is part of a much larger restoration initiative.



Expanding Our Influence

To expand our influence, CHNEP must:

- **reach diverse audiences throughout the region**
- **generate or strengthen awareness and understanding**
- **cultivate and support a variety of community partners**

What We Do: Research, Restoration, Advocacy, and Stewardship

The CHNEP addresses the four priority problems through four activities: research, restoration, advocacy, and stewardship.

We focus on public education and outreach to engage and empower citizens to protect and restore resources in their own communities. We also provide policymakers the information they want and need, as well as to advocate for funding for resource protection and restoration efforts.

Our outreach principles are:

- Increase awareness and understanding of the natural environment of Southwest Florida and increase awareness and appreciation of the CHNEP.
- Further partnerships with those who are helping to protect the environment.
- Be fair and equitable so that efforts are supported throughout the CHNEP study area, particularly within the 10 counties that participate in the CHNEP Management Conference.
- Develop cost-effective products and programs that appeal to a broad base.
- Strive to empower and engage citizens to protect natural resources in their communities, not just provide information.

OUR STRATEGIC VISION

The Comprehensive Conservation and Management Plan (CCMP)

The Management Conference assesses and identifies key issues and opportunities in the study area – and maps out specific Priority Actions to address those issues. This plan is called the Comprehensive Conservation and Management Plan, or the CCMP.

The CHNEP Comprehensive Conservation and Management Plan is our 5-year strategic plan. It is outlines what CHNEP and its partners have determined is necessary to protect and restore the region's natural resources, which support our economy and quality of life.

The CCMP identifies the region's common priority environmental issues and the actions needed to solve them. The CHNEP held its kickoff ceremony in September 1996 and began the process of writing the CCMP. When the CCMP was first completed and accepted in 2001, it marked the beginning of action to protect and restore the estuary and its watershed. The CCMP was updated in 2008, 2013, and most recently in 2019.

The Process to Implement Our CCMP

We implement the CCMP by building partnerships to develop integrated plans, education and outreach programs, and management structures to achieve a sustainable balance between the economy, society, and the environment.

The CCMP details the actions needed to protect and improve our watershed as we try to balance human needs with the needs of the natural systems.

Keys to CCMP Implementation Success:

- For the CCMP to be realized, citizens, governments, and industries of the region will need to work together, combine resources, and overcome institutional boundaries.
- The objectives and performance measures are specific so we can measure our progress.
- The timelines are short to encourage immediate attention and action.
- The CCMP is periodically updated to ensure it is based on the best available science and adequately addresses emerging issues.

All these challenges are surmountable because we are unified in our mission to *Unite Central and Southwest Florida to protect water and wildlife*.

Water Quality Improvement

Vision

Waters that meet their designated human uses for drinking, shellfish harvesting, or swimming and fishing, while supporting appropriate and healthy aquatic life.

B. Zoning Analysis:

1. **Current Use of Land:** The current use of the land is vacant.

4. **Proposed Zoning Designation:** The proposed zoning designation is R-1.
5. **Current Zoning Population Yield:** The current zoning does not allow any residential development and would not have a potential population yield.
6. **Proposed Zoning Population Yield:** The proposed zoning would allow 1 dwelling unit per legal Lot of record; the parcel contains 2 Lots, but the property owner is only proposing 1 single family residence. The parcel would carry a potential population yield of 2 persons: 1 dwelling unit x 2.25 persons = 2.25 persons.
7. **The Applicant's proposed development program:** The Applicant is proposing to use the site for a single-family residence.

C. Special Designated Areas:

1. **Environmental Protection:** The Conservation Overlay Map series of the Comprehensive Plan indicates that the site does not contain any Selected Natural Resources. 2. **Historic Resources:** The Florida Master Site File (FMSF) indicates that there are no known historic resources on the property.
3. **Archaeological Resources:** The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the FMSF indicate no known archaeological resources on the site.

5. **Military Airport Zones (MAZ):** The property is located within MAZ III as designated by Section 12.12.800 of the Highlands County LDRs.
6. **Wellhead Protection Zones:** The property is not located within any of the defined protection zones as defined by Infrastructure Policy 6.6. of the Comprehensive Plan.
7. **Airport Surface Areas:** The property is located within the conical and horizontal surface areas of the Sebring Regional Airport as designated by Chapter 2.1 of the Highlands County Code of Ordinances and should be developed consistent with these regulations.

D. Public Facilities and Services:

1. **Potable Water:** The property will be served by an off-site central potable water system provided by the Spring Lake Improvement District.
2. **Central Wastewater:** The property will be served by an on-site wastewater tank system that will be designed to connect to a central wastewater treatment system when it becomes available.
3. **Solid Waste:** The property will be serviced by a county-approved refuse collection company.

E. Traffic Impacts: Pursuant to the Comprehensive Plan: Technical Support Section, a traffic analysis **is not** required at the time of development.

F. Schools: The proposed use will be located within an existing subdivision vested for residential development. The proposed development will not generate additional student impacts to the school district than what the subdivision is vested for; school concurrency **is not** required.

G. Airports: The subject property is located approximately 14.5 miles southeast of the Avon Park Executive Airport and 0.5 miles southwest of the Sebring Regional Airport.

Mandatory Findings of Fact:

Plan Consistency Finding: The proposed zoning change **is consistent** with the goals, objectives, and policies of the adopted Comprehensive Plan.

Environmental Clearance Finding: Environmental Clearance, pursuant to Natural Resources Element Policy 3.3 of the Comprehensive Plan, **is not required** for the proposed zoning change.

Historical and Archaeological Clearance: The proposed zoning change **is not required** to obtain Historical and Archaeological clearance, pursuant to FLU Policy 7.1 and NRE Policy 1.3 of the Comprehensive Plan. The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the

Comprehensive Plan and the Florida Master Site File indicate that there are no known cultural resources on the property.

Conformity Finding: If approved, all future development actions for the property shall be made to conform to applicable Comprehensive Plan policies and to LDRs in effect at the time the applicable development order becomes effective as provided by law.

The Planning Division, based on the Mandatory Findings of Fact and Consistency with the Comprehensive Plan, recommends the Board of County Commissioners to approve and adopt by Resolution, P&Z 2114, changing the Official Zoning Atlas for an approximate 1.45 acres from Agricultural District with a Conditional Use (AU CU) to Residential District (R-1), referencing the mandatory findings of fact and becoming effective as provided by law.

4. The Application is not consistent with the following Goals, Objectives, and/or Policies from Comprehensive Plan:

Future Land Use Element

Objective 1: Growth Management Strategy:

Policy 1.1, General Growth Management Strategy:

A.1. Encourage compatible future growth, including infill, in the planning period of 2010 to 2030;

A.2. Allow and encourage compatible infill development wherever properties are already served by public infrastructure, but not utilized at the most suitable density and/or intensity or type of land use in relation to surrounding development;

Policy 1.2, General Growth Management Strategy:

D.10. […] Industrial uses that are a potential endangerment to public health and safety (such as chemical plants, incinerators, waste processing facilities, the manufacture and storage of explosives, electrical generation stations and natural gas sub-stations) shall be required in all cases to locate in isolated areas, away from population centers, and generally in the rural areas of the County.

Department Comments and Analysis of Petitioner's Proposal:

1. The Departments, Divisions, and Agencies listed below provided comments as follows:

Zoning Division: The staff has no objection to this request.

Engineering Department: Approved with conditions. At the time of development, the applicant shall undergo the commercial development review process and additional requirements may be identified at that time.

Please note that there are concerns with the existing roadway's lack of right-of-way for the significant improvements needed to Twitty Road. If approved, the County Engineer recommends that a condition be placed on the conditional use that Twitty Road shall be required to comply with the collector roadway standards.

Florida Department of Health: No objection.

2. The following Departments, Divisions, and Agencies offered no comment: Highlands County Natural Resources.

3. **The following Departments, Divisions, and Agencies did not respond:** City of Sebring, Florida Department of Environmental Protection, Florida Department of Transportation, Highlands County Emergency Management, Highlands County Emergency Medical Services, and Highlands County Fire Rescue.

4. **Planning Division:** The following analysis and findings of fact describe the physical, legal and cultural characteristics of the Applicant's property:

A. Natural Features Analysis:

1. **Topography:** The topographic map depicts the subject property as mostly level with an elevation between 110 and 115 feet.
2. **Soils:** The soil underlying the site is *Astatula.* The available water capacity is very low, with a very rapid permeability. Depth to the water table is more than 80 inches. This soil is nearly level to moderately sloping, and excessively drained.
3. **Surface Waters:** The subject parcel has no surface water areas.
4. **Vegetative Cover:** The site has been cleared of native vegetation.

B. Land Use Analysis:

1. **Current Use of Land:** The current use of the land is a citrus grove.
2. **Vesting Rights:** Not applicable.
3. **Current Future Land Use Map (FLUM) Designation:** The site has a FLUM designation of Agriculture.
4. **Proposed FLUM Designation:** The proposed FLUM designation is Industrial.
5. **Current FLUM Population Yield:** The current FLUM allows up to 1 dwelling unit per 5 acres. The parcel would currently carry a potential population yield of 6 persons; 18.29 ÷ 5 acres = 3.66 dwelling units; 3 dwelling units x 2.25 persons = 6.75 persons.
6. **Proposed FLUM Intensity:** The proposed FLUM allows a maximum of 1.00 FAR.
7. **The Applicant's proposed development program:** The Applicant is proposing to use the site for a concrete mixing plant.

C. Special Designated Areas:

1. **Environmental Protection:** The Conservation Overlay Map series of the Comprehensive Plan indicates that the site does not contain any Selected Natural Resources. Pursuant to Natural Resource Element Policy 3.3. of the Comprehensive Plan, the Applicant **is not required** to obtain Environmental Clearance at the time of development.
2. **Historic Resources:** The Florida Master Site File (FMSF) indicates that there are no known historic resources on the property.
3. **Archaeological Resources:** The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the FMSF indicate no known archaeological resources on the site.
4. **Floodplains (FEMA designation):** The property has a flood zone designation of X, for areas located outside the Special Flood Hazard

Areas, as depicted on the Flood Insurance Rate Map Community Panel Number **12055C0241C**, effective November 18, 2015.

5. **Military Airport Zones (MAZ):** The property is located within MAZ III as designated by Section 12.12.800 of the Highlands County LDRs.
6. **Wellhead Protection Zones:** The property is not located within any of the defined protection zones as defined by Infrastructure Policy 6.6. of the Comprehensive Plan.
7. **Airport Surface Areas:** The property is not located within any of the defined surface areas as designated by Chapter 2.1 of the Highlands County Code of Ordinances.

D. Public Facilities and Services:

1. **Potable Water:** The property will be served by an on-site potable water (well) system that will be designed to connect to a central water system when it becomes available.
2. **Central Wastewater:** The property will be served by an on-site wastewater system (septic) that will be designed to connect to a central wastewater treatment system when it becomes available.
3. **Solid Waste:** The property will be serviced by a county-approved refuse collection company.
4. **Vehicular Access and Traffic Circulation:** The site access will be on Twitty Road.
5. **Railroad Access:** The site is not located adjacent to railroad tracks or a rail spur.
6. **Recreation:** The proposed development will not require the need for recreation.
7. **Drainage:** The Applicant will be required to comply with Section 12.13.104.F. of the Highlands County LDRs and the applicable water management district regulations.

E. Traffic Impacts: Pursuant to the Comprehensive Plan: Technical Support Section, a traffic analysis **is** required at the time of development.

F. Schools: The permitted uses within the Industrial Future Land Use designation are industrial in nature. Any project development will not generate student impacts to the school district; school concurrency **is not** required.

G. Airports: The subject property is located approximately 13.3 miles southeast of the Avon Park Executive Airport and 3.6 miles west of the Sebring Regional Airport.

H. Fundamental Planning Analysis ref. Comprehensive Plan:
Technical Support Section II. 3.b. (1-8) for the Future Land Use Element: Sprawl Rule Indicators:

(1) *Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems:*

This indicator is not applicable. Concrete mixing plants can have an adverse impact on air quality. The location of this site is within a population center with several subdivisions as close as 1,000 feet.

(2) *Promotes the efficient and cost-effective provision or extension of public infrastructure and services:* This indicator is not applicable. The site will not have cost-effective access to central potable water or wastewater.

(3) *Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available:* This indicator is not applicable. Locating a concrete mixing plant close to residential uses is not appropriate due to environmental hazards and noise concerns.

(4) *Promotes conservation of water and energy:* This indicator is not applicable.

(5) *Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils:* This indicator is not applicable. The proposed development specifically requests to change the property from agricultural lands to industrial lands

(6) *Preserves open space and natural lands and provides for public open space and recreation needs:* This indicator is not applicable.

(7) *Creates a balance of land uses based upon demands of the residential population for the nonresidential needs of an area:* This indicator is not applicable.

(8) *Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. 163.3164:* This indicator is not applicable.

Mandatory Findings of Fact:

Use Consistency Finding: The proposed Small Scale Comprehensive Plan Amendment **is not consistent** with the patterns of existing development within this area and not compatible with the surrounding land uses.

Plan Consistency Finding: The proposed Small Scale Comprehensive Plan Amendment **is not consistent** with the goals, objectives, and policies of the adopted Comprehensive Plan.

Environmental Clearance Finding: Environmental Clearance, pursuant to Natural Resources Element Policy 3.3 of the Comprehensive Plan, **is not required** for the proposed Small Scale Comprehensive Plan Amendment.

Historical and Archaeological Clearance: The proposed Small Scale Comprehensive Plan Amendment **is not required** to obtain Historical and Archaeological clearance, pursuant to FLU Policy 7.1 and NRE Policy 1.3 of the

Comprehensive Plan. The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the Florida Master Site File indicate that there are no known cultural resources on the property.

Conformity Finding: If approved, all future development actions for the property shall be made to conform to applicable Comprehensive Plan policies and to LDRs in effect at the time the applicable development order becomes effective as provided by law.

The Planning Division, based on the Mandatory Findings of Fact and Inconsistency with the Comprehensive Plan, recommends the Board of County Commissioners to deny CPA-22-610SS.

A. Natural Features Analysis:

Topography: The topographic map depicts the subject property as mostly level with an elevation between 110 and 115 feet.

Soils: The soil underlying the site is *Astatula.* The available water capacity is very low, with a very rapid permeability. Depth to the water table is more than 80 inches. This soil is nearly level to moderately sloping, and excessively drained.

Surface Waters: The subject parcel has no surface water areas.

3. **Current Zoning Designation:** The site has a zoning designation of AU.
4. **Proposed Zoning Designation:** The proposed zoning designation is I-2 CU.
5. **Current Population Yield:** The current zoning allows up to 1 dwelling unit per 5 acres. The parcel would currently carry a potential population yield of 6 persons; 18.29 ÷ 5 acres = 3.66 dwelling units; 3 dwelling units x 2.25 persons = 6.75 persons.
6. **Proposed Zoning Intensity:** The proposed zoning allows a maximum of 1.00 FAR.
7. **The Applicant's proposed development program:** The Applicant is proposing to use the site for a concrete mixing plant.

C. Special Designated Areas:

Pursuant to Natural Resource Element Policy 3.3. of the Comprehensive Plan, the Applicant **is not required** to obtain Environmental Clearance at the time of development.
2. **Historic Resources:** The Florida Master Site File (FMSF) indicates that there are no known historic resources on the property.
3. **Archaeological Resources:** The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the FMSF indicate no known archaeological resources on the site.
4. **Floodplains (FEMA designation):** The property has a flood zone designation of X, for areas located outside the Special Flood Hazard Areas, as depicted on the Flood Insurance Rate Map Community Panel Number **12055C0241C**, effective November 18, 2015.
5. **Military Airport Zones (MAZ):** The property is located within MAZ III as designated by Section 12.12.800 of the Highlands County LDRs.
6. **Wellhead Protection Zones:** The property is not located within any of the defined protection zones as defined by Infrastructure Policy 6.6. of the Comprehensive Plan.

7. **Airport Surface Areas:** The property is not located within any of the defined surface areas as designated by Chapter 2.1 of the Highlands County Code of Ordinances.

D. Public Facilities and Services:

1. **Potable Water:** The property will be served by an on-site potable water system (well) that will be designed to connect to a central water system when it becomes available.
2. **Central Wastewater:** The property will be served by an on-site wastewater system (septic) that will be designed to connect to a central wastewater treatment system when it becomes available.
3. **Solid Waste:** The property will be serviced by a county-approved refuse collection company.
4. **Vehicular Access and Traffic Circulation:** The site access will be on Twitty Road.
5. **Railroad Access:** The site is not located adjacent to railroad tracks or a rail spur.
6. **Recreation:** The proposed development will not require the need for recreation.
7. **Drainage:** The Applicant will be required to comply with Section 12.13.104.F. of the Highlands County LDRs and the applicable water management district regulations.

E. Traffic Impacts: Pursuant to the Comprehensive Plan: Technical Support Section, a traffic analysis **is** required at the time of development.

F. Schools: The permitted uses within the Industrial Future Land Use designation are industrial in nature. Any project development will not generate student impacts to the school district; school concurrency **is not** required.

G. Airports: The subject property is located approximately 13.3 miles southeast of the Avon Park Executive Airport and 3.6 miles west of the Sebring Regional Airport.

Mandatory Findings of Fact:

Use Consistency Finding: The proposed zoning change **is not consistent** with the patterns of existing development within this area and not compatible with the surrounding land uses.

Plan Consistency Finding: The proposed zoning change **is not consistent** with the goals, objectives, and policies of the adopted Comprehensive Plan.

Environmental Clearance Finding: Environmental Clearance, pursuant to Natural Resources Element Policy 3.3 of the Comprehensive Plan, **is not required** for the proposed zoning change.

Historical and Archaeological Clearance: The proposed zoning change **is not required** to obtain Historical and Archaeological clearance, pursuant to FLU Policy 7.1 and NRE Policy 1.3 of the Comprehensive Plan. The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the Florida Master Site File indicate that there are no known cultural resources on the property.

Conformity Finding: If approved, all future development actions for the property shall be made to conform to applicable Comprehensive Plan policies and to LDRs in effect at the time the applicable development order becomes effective as provided by law.

The Planning Division, based on the Mandatory Findings of Fact and Inconsistency with the Comprehensive Plan, recommends the Board of County Commissioners to deny P&Z 2116.

4. Supporting Goals, Objectives, and/or Policies from Comprehensive Plan:

Future Land Use Element

Objective 1: Growth Management Strategy:

Policy 1.1, General Growth Management Strategy:

A.1. Encourage compatible future growth, including infill, in the planning period of 2010 to 2030;

B. In general, the outward expansion of urban land uses from the municipal limits of Avon Park, Sebring, and Lake Placid shall connect to the existing and planned infrastructures and centralized services that support the communities, municipalities and many of the employment centers of Highlands County. In most instances, development decisions should recognize this as a fundamental principle of policies governing future development within Highlands County. The County will give preference to:

1. Opportunities for infill or redevelopment, which such opportunities exist.

Policy 1.2.D.4, High Density Residential (RH):

Prime candidates for development at this density are infill properties situated in close proximity to municipal boundaries, shopping and

employment centers, the intersections of paved arterial or collector roads, and similarly developed sites. In addition to these considerations, new development or redevelopment at the upper limits of this density range may be required to connect to an existing central wastewater system and potable water system which are available to the site, or provided on site as required supporting uses.

Policy 13.1.1, Housing Strategy

Provide a broad inventory of new single-family residential units and multiple-family residential units. Address a diverse population of various incomes consistent with the policies cited in the Housing Element of the Comprehensive Plan with a target of 600 affordable housing and rental units for start-up families.

Infrastructure Element

Objective 6: Provide Sufficient Potable Water to Residential and Nonresidential Users Within Water Service Areas Consistent with the Water Supply Facilities Work Plan:

Policy 6.5, Mandatory Connection to Central Water System:

B. The County shall require that all new development and redevelopment containing dwelling units on lots smaller than one (1.0) gross acre in size to provide potable water as follows:

1. Multi-Family Developments (regardless of parcel size) and subdivisions with lots less than 1 acre in size shall be required to:

a. Connect to an existing system.

Policy 6.9, Mandatory Connection to Central Water System:

A. Upon adoption, the County shall require that all new development and redevelopment containing dwelling units on lots smaller than one (1.0) gross acre in size to provide potable water as follows:

1. Multi-Family Developments (regardless of parcel size) and subdivisions with lots less than 1 acre in size shall be required to:

a. Connection to an existing system.

Department Comments and Analysis of Petitioner's Proposal:

1. **The Departments, Divisions, and Agencies listed below provided comments as follows:**

   Engineering Department: Approved with conditions. At the time of development, the Applicant shall undergo the commercial development review process, and additional requirements may be identified at that time.

   Zoning Division: The staff has no objection to this request.

   Florida Department of Health: No objection.

2. **The following Departments, Divisions, and Agencies offered no comment:** Florida Department of Environmental Protection, Florida Department of Transportation, Natural Resources, and Sebring Airport.

3. **The following Departments, Divisions, and Agencies did not respond:** City of Sebring, Highlands County Economic Development, Highlands County Emergency Management, Highlands County Emergency Medical Services, and Highlands County Fire Rescue.

4. **Planning Division:** The following analysis and findings of fact describe the physical, legal and cultural characteristics of the Applicant's property:

   A. Natural Features Analysis:
   1. **Topography:** The topographic map depicts the subject property as sloping slightly from southwest to northeast with an elevation between 130 and 150 feet.
   2. **Soils:** The soil underlying the site is *Astatula Sand, 0 to 8% slopes.* The soil is nearly level to moderately sloping, excessively drained, and sandy, causing slight limitations on urban uses which can be overcome by adding suitable topsoil.
   3. **Surface Waters:** The subject parcel has no surface water areas.
   4. **Vegetative Cover:** The site contains a citrus grove and has been cleared of native vegetation.

   B. Land Use Analysis:
   1. **Current Use of Land:** The current use of the land is a citrus grove.
   2. **Vesting Rights:** None.
   3. **Current Future Land Use Map (FLUM) Designation:** The site has a FLUM designation of C and RH.
   4. **Proposed FLUM Designation:** The proposed FLUM designation is RH.
   5. **Current FLUM Population Yield and Intensity:** The current RH designation allows up to 212 dwelling units and carries a potential population yield of 477 persons; 212 dwelling units x 2.25 persons = 477 persons.

The current C designation allows a maximum of 0.70 FAR for office and 0.80 for other commercial uses.

6. **Proposed FLUM Population Yield:** The proposed FLUM would allow up to 12 dwelling units per acre, but the Applicant is proposing 300 units and a maximum of 6 persons per unit through a Planned Development zoning change. The parcel would carry a potential population yield of 1800 persons: 300 dwelling units x 6 persons = 1800 persons.
7. **The Applicant's proposed development program:** The Applicants are proposing to develop the site for a 300-unit multi-family residential development.

C. Special Designated Areas:

1. **Environmental Protection:** The Conservation Overlay Map series of the Comprehensive Plan indicates that the site contains no Selected Natural Resources. Pursuant to Natural Resource Element Policy 3.3. of the Comprehensive Plan, the Applicant **is not required** to obtain Environmental Clearance at the time of development.
2. **Historic Resources:** The Florida Master Site File (FMSF) indicates that there are no known historic resources on the property.
3. **Archaeological Resources:** The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the FMSF indicate no known archaeological resources on the site.
4. **Floodplains (FEMA designation):** The property has a flood zone designation of X, for areas located outside the Special Flood Hazard Areas, as depicted on the Flood Insurance Rate Map Community Panel Number **12055C0138C and 12055C0139C**, effective November 18, 2015.
5. **Military Airport Zones (MAZ):** The property is located within MAZ III as designated by Section 12.12.800 of the Highlands County LDRs.
6. **Wellhead Protection Zones:** The property is not located within any of the defined protection zones as defined by Infrastructure Policy 6.6. of the Comprehensive Plan.
7. **Airport Surface Areas:** The property is not located within any of the defined surface areas as designated by Chapter 2.1 of the Highlands County Code of Ordinances.

D. Public Facilities and Services:

1. **Potable Water:** The property will be served by an off-site central potable water system provided by the City of Sebring.
2. **Central Wastewater:** The property will be served by an off-site central wastewater system provided by the City of Sebring.
3. **Solid Waste:** The property will be serviced by a county-approved refuse collection company.
4. **Vehicular Access and Traffic Circulation:** The site has direct access onto Ben Eastman Road.
5. **Railroad Access:** The site does not have direct railroad access.

6. **Recreation:** The proposed development will require approximately 3.76 acres of recreation; the Applicants are proposing more than 4 acres of recreation space.
7. **Drainage:** The Applicant will be required to comply with Section 12.13.104.F. of the Highlands County LDRs and the applicable water management district regulations.

E. **Traffic Impacts:** Pursuant to the Comprehensive Plan: Technical Support Section, a traffic analysis **is** required at the time of development. The Applicant has submitted a traffic analysis to the County Engineer for review and comment.

F. **Schools:** The permitted uses within the R-3 PD zoning designation will generate student impacts to the school district; school concurrency **is** required.

G. **Airports:** The subject property is located approximately 5.9 miles southeast of the Avon Park Executive Airport and 7.9 miles northwest of the Sebring Regional Airport.

H. **Fundamental Planning Analysis ref. Comprehensive Plan:**
Technical Support Section II. 3.b. (1-8) for the Future Land Use Element: Sprawl Rule Indicators:

(1) *Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems:* The site is an existing citrus grove that does not contain any significant environmental features. It has direct access to an existing minor collector roadway. All required permits from appropriate agencies shall be obtained prior to development.

(2) *Promotes the efficient and cost-effective provision or extension of public infrastructure and services:* The future development will be able to connect to existing central potable water and wastewater systems. Fire services and law enforcement are already available.

(3) *Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available:* The property is located across from an existing multi-use path that connects to the Sebring Parkway, which in turn connects to US 27 and downtown Sebring. This multi-use path would provide walkability for residents.

(4) *Promotes conservation of water and energy:* The property is located in an area with exiting water and sewer, adequate roadway capacity, and higher density developments adjacent to and within the City of Sebring.

(5) *Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils:* This indicator is not applicable.

(6) *Preserves open space and natural lands and provides for public open space and recreation needs:* The future development will locate on already disturbed natural lands; hence, the development preserves other open space and natural lands.

(7) *Creates a balance of land uses based upon demands of the residential population for the nonresidential needs of an area:* The proposed amendment will not result in the loss of any existing commercial development. The property is additionally located in an area where there are currently multiple large undeveloped parcels with a Future Land Use of High Density Residential.

(8) *Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. 163.3164:* This indicator is not applicable.

Mandatory Findings of Fact:

Use Consistency Finding: The proposed Large Scale Comprehensive Plan Amendment **is consistent** with the patterns of existing development within this area and compatible with the surrounding land uses.

Plan Consistency Finding: The proposed Large Scale Comprehensive Plan Amendment **is consistent** with the goals, objectives, and policies of the adopted Comprehensive Plan.

Environmental Clearance Finding: Environmental Clearance, pursuant to Natural Resources Element Policy 3.3 of the Comprehensive Plan, **is not required** for the proposed Large Scale Comprehensive Plan Amendment.

Historical and Archaeological Clearance: The proposed Large Scale Comprehensive Plan Amendment **is not required** to obtain Historical and Archaeological clearance, pursuant to FLU Policy 7.1 and NRE Policy 1.3 of the Comprehensive Plan. The Archaeologically Sensitive Areas Map of the Conservation Overlay Map series of the Comprehensive Plan and the Florida Master Site File indicate that there are no known cultural resources on the property.

Conformity Finding: If approved, all future development actions for the property shall be made to conform to applicable Comprehensive Plan policies and to LDRs in effect at the time the applicable development order becomes effective as provided by law.

The Planning Division, based on the Mandatory Findings of Fact and Consistency with the Comprehensive Plan, recommends the Board of County Commissioners

to approve and adopt by Ordinance, CPA-22-603LS, amending the Future Land Use Map of the Highlands County Comprehensive Plan for an approximate 17.69 acres from Commercial (C) to High Density Residential (RH), and amending the text of the Future Land Use Element of the Highlands County 2030 Comprehensive Plan, referencing the mandatory findings of fact, and transmitting CPA-22-603LS to the Florida Department of Economic Opportunity for expedited state review.

HIGHLANDS COUNTY
COUNTY COMMISSION AGENDA ITEM

DATE OF ACTION REQUEST: December 20, 2022

PRESENTER:	**Melony Culpepper, Assistant Development Services Director/Planning and Zoning Manager**
SUBJECT/TITLE:	**Public Hearing to consider text amendments to the Highlands County Land Development Regulations, Florida pertaining to Agricultural Worker Housing.**

STATEMENT OF ISSUE

On December 6, 2022, the Board of County Commissioners held the first public hearing on the proposed amendments. This is the adoption hearing. The Planning and Zoning Commission recommended approval of the text amendments on November 8, 2022.

The Highlands County 2030 Comprehensive Plan contains a Housing Element that provides for objectives and policies to guide future housing related development; Objective 9 is specifically related to Agricultural Worker Housing. Objective 9 states [the County shall] "Encourage the development of agricultural worker housing to meet the needs of the agricultural business in Highlands County."

Currently, agricultural workers are limited to agriculturally zoned properties, or residential zoned properties with a maximum of 4 unrelated persons per single family home. In the Agricultural (AU) zoning district, the agricultural workers must work on the property that they are requesting to live on. Otherwise, a special exception must be applied for to the Zoning Board of Adjustment with no guarantee of approval.

The agricultural community has asked that staff work on potential amendments to the Highlands County Land Development Regulations that will complement the objectives of the Highlands County Comprehensive Plan and that will reduce or eliminate the requirement for a special exception. Staff has partnered with Central Florida Regional Planning Council (CFRPC) to draft proposed language based on regulations found throughout central Florida and the Heartland region.

RECOMMENDED ACTION

Move to approve and adopt by Ordinance 22-23-11, the proposed text amendments to the Land Development Regulations, pertaining to Agricultural Worker Housing.

Top Initiatives for FY 2023-2034

Opposition to Unfunded Mandates

Request:

The Florida Legislature is requested to oppose the expansion of all unfunded mandates.

Executive Summary:

Small counties appreciate recognition of local employees through salary adjustments in the Legislature. However, efforts to enhance groups of local employees should be accompanied with sufficient recurring state funding to implement the requirements.

Highlands County is opposed to the expansion of unfunded mandates upon Florida's local governments. Unfunded mandates are state-mandated policy directives upon local governments which receive little to no accompanying funding in the State's Budget from the Legislature for implementation and administration. The County believes all state mandates should be accompanied by full-support funding from the Legislature.

Support for Additional Fiscal Resources to Address Stormwater Drainage

Request:

The Florida Legislature is requested to support additional local funding resources to address stormwater drainage.

Executive Summary:

Highlands County receives numerous concerns each year from citizens regarding new and existing drainage issues. A large amount of the issues occurs in more densely developed areas. The aging of stormwater infrastructure combined with the financial constraints of both the County and private property owners presents a challenge for determining corrective action. There are limited opportunities for the County, homeowners' associations, and private property owners to resolve these problems due to both cost and stormwater facility ownership issues.

Though the County has recently received funding for drainage studies in the form of grants and loans, the majority of funding options that are available for implementation are loan programs. This may be beneficial to areas that own their own utilities where the can recoup costs through utility income. However, many counties, including Highlands, do not own their own utilities. This makes funding these multimillion-dollar stormwater projects to be extremely challenging, particularly for fiscally constrained counties.

Support Dramatically Increased Funding for the Statewide Transportation Disadvantaged Program

Request:

The Florida Legislature is requested to support dramatically expanded funding for the Transportation Disadvantaged Program.

Executive Summary:

The Transportation Disadvantaged Program is designed to ensure the availability of efficient, cost-effective, and quality transportation services for transportation disadvantaged persons. The Transportation Disadvantaged Program is a coordinated system in all 67 Florida counties that provides vital transportation to medical appointments, employment, educational and other life sustaining services for those who cannot obtain their own transportation due to a disability, age, or income for an affordable co-pay.

Over the past 3 years, the Transportation Disadvantaged Program has seen a decrease in State funding by about $15,000,000, or a 14% overall decrease. Unfortunately, this decrease in State funding for this program hurts the citizens that need this assistance the most. With the aging population in our state and many citizens needing transportation alternatives, the demand has increased considerably over the past few years and is forecast to become an even greater need for the foreseeable future. As a result of the recent decreases in funding and the increases in demand, the current funding isn't sufficient to satisfy any of the employment, educational or quality-of-life trip demands in Highlands County, and only partially satisfies the medical needs for our lower-income residents.

Highlands County is not a direct recipient of the program funding but would partner with organizations like the Central Florida Regional Planning Council (CFRPC), Heartland Regional Transportation Planning Organization (HRTPO), our county's municipalities, transportation coordinators and vendors, and other partners to present a united front with a cohesive message portraying the strong need for additional funding.

Support for Fiscal Resources to Create a County-Owned Multi-Use Facility

Request:

The Florida Legislature is requested to support implementation funding for a county-owned multi-use facility.

Executive Summary:

Through a sustained annual increase in sports tourism economic impact to Highlands County, as well as an increase in recreational interests among residents, the Highlands County Tourist Development Council (TDC) held a county-wide meeting on April 27, 2022 to gauge local interest in a multi-use sports and recreational facility. The meeting was successful with several resident groups indicating a desire and need for a multi-use facility with various amenities.

In order to determine what would be the ideal facility for Highlands County that would bolster tourism and benefit local residents, the TDC has obtained grant funding to engage the services of a nationwide consultant who will provide the County with a facility study and recommendations no later than April 2023. Implementation of this facility will require significant funding.

Support the Easing of Restrictions on the Use of Proceeds of the Sale of the County-Owned Hospital Property

Request:

The Florida Legislature is requested to support the easing of restrictions on the use of proceeds of the sale of the county-owned hospital property.

Executive Summary:

Currently, Florida Statutes, Section 155.40 states that if we were to sell the county-owned hospital property, we must follow certain guidelines on how the proceeds are spent. The current laws are as follows:

- 50% of the net proceeds of the sale would be deposited into a health care economic development trust fund, which shall be under the control of the county commission. The net proceeds in the trust fund shall be distributed, in consultation with the Department of Economic Opportunity, to promote job creation in the health care sector of the economy through new or expanded health care business development, new or expanded health care services, or new or expanded health care education programs or commercialization of health care research within the affected community.
- The other 50% of the net proceeds of the sale would be set aside for funding the delivery of indigent care, including primary care, physician specialty care, outpatient care, in-patient care, and behavioral health.

Concerns have been brought forth by administration and staff regarding the law as written, and amendments have been suggested to change the percentages, as well as adding healthcare-related infrastructure to the options in the healthcare economic development trust fund. Exact percentages have yet to be determined.

Support FDOT in Improving Roadway Safety on State Road 70

Request:

The Florida Legislature is requested invest in the roadway safety on State Road 70.

Executive Summary:

Highlands County commissioners have previously expressed the concern for the significant number of fatalities on State Road 70 (SR70) within the confines of Highlands County from motor vehicle accidents, and the level of increase of these fatalities. Though SR70 is a major thoroughfare in Highlands, the road is property of the State of Florida, and as such, the County cannot make

The number of fatalities on SR70 within the boundaries of Highlands County has made its way to a total of 12 so far for 2022. In the past 5 years, fatalities are at a total of 36. Though this roadway and it's need for improvements is not a new topic of conversation amongst lawmakers and FDOT, we ask that legislators give this issue serious attention and being to work towards a solution in a timely manner.
